WM 975319 Removing and installing wire harness for seat heater

Information

Spare parts information

Information

The seat-heating wire harness is only available as a spare part together with the heating element. The heating element is stuck to the padding and can only be replaced together with the padding. Depending on the I number, the padding spare part is only supplied with the heating element and seat-heating wire harness attached.

Replace padding for front seat. → *741019 Removing and installing padding for front seat*
